

Fuel Board May Reorganize Staff Since Disclosures

Administrator Garfield Admits Distribution Chief Receives Outside Salary

Senate to Investigate

J. D. A. Morrow Paid \$15,000 a Year by National Coal Association, Report States

(Special Dispatch to The Tribune)

WASHINGTON, Sept. 20.—Reorganization of the fuel administration staff may follow the disclosure that the distribution agencies utilized by Fuel Administrator Garfield are now controlled by the coal trade.

Dr. Garfield admitted today that J. D. A. Morrow, chief of the Division of Distribution of the fuel administration, was receiving a salary of \$15,000 a year from the National Coal Association. He further confirmed reports that Mr. Morrow had recently stated that coal operators had expended \$1,000,000 in executing the fuel administration's distribution program.

The fuel administrator explained that in organizing a field force to handle fuel distribution he had been compelled to turn to the coal trade, because Congress had not appropriated sufficient money to secure men of the caliber required for the task. In consequence, the greater majority of district representatives of the fuel administration in charge of distribution are in the pay of coal operators or owners' associates. Some of these men are receiving as high as \$15,000 a year from the trade bodies. He stated that it was his belief that Mr. Morrow and the district distribution agents, despite their connection with the trade associations, had served the fuel administration without regard to their personal interests.

The scheme of organization, however, which utilizes for government service men paid by the industry which the government is seeking to control, Dr. Garfield admitted, has been a criticism. If Congress will appropriate sufficient funds to make a better system possible, the fuel administrator declared he will undertake to divorce the fuel administration as far as possible from its present dependence on the coal trade.

The statement made by Mr. Morrow, that the coal trade spent over a million dollars in executing the government's coal distribution plans, has already been the subject matter of private inquiries made by members of Congress. It is understood that the matter will be thoroughly investigated by the Senate Finance Committee within the next few weeks.

Cars Also May Be Used to Go Long Distances to Church, Garfield Says

(Special Dispatch to The Tribune)

WASHINGTON, Sept. 20.—The use of automobiles on Sunday for promoting the Liberty Loan drive, which commenced on September 28, was today approved by Fuel Administrator Garfield. In addition, the use of automobiles to drive considerable distances to church or to reach war gardens, where religious and patriotic services are unavailable, was similarly declared to be no violation of the gasless Sunday order.
